

**RANDO N°271**

**24 Octobre 2022**

**Départ du village de Caussols. Temps nuageux, température douce.  
Ascension jusqu'au radar de l'aviation civile du haut Montet par le col du Clapier.  
Vue panoramique du pays côtier sous la brume.  
Belle randonnée facile avec des paysages variés, des sentiers agréables et deux magnifiques Bories bien conservées.  
Un parcours d'environ 13 km et de 500 m de dénivelé.**

Gourdon au centre...

1859

Date du puzzle !!!

A photograph of a traditional stone borie, a small, cylindrical structure built from rough-hewn grey stones. It has a simple arched entrance on the front. The borie is situated in a wide, open field of green and yellowish grass. In the background, there are scattered trees, including several tall, dark evergreens, and rolling hills under a heavy, overcast sky with soft, grey clouds. The overall scene is rural and somewhat desolate.

La borie de Maubert

La borie du Col du Clapier

Le Groupe

A landscape photograph showing a hill with a satellite dish on its peak. The foreground is filled with dark green pine trees. The middle ground shows a forested slope leading up to the hill. The sky is overcast and hazy. The text "Le Haut Montet" is overlaid on the left side of the image.
